

Віталій Грех Dilkone

Ivano-Frankivsk, Ukraine

Born in Drohobych in 1992. He did not receive any formal artistic education. He began gaining his artistic experience through street art and the graffiti wave starting in 2007. Later, he transitioned to other forms of street art and eventually to other artistic practices. Since 2010, he has participated in group exhibitions, and later in festivals and residencies.

In 2012, the formation of the Kickit Art Studio team had a huge influence on his work. This was a catalyst for implementing more quality collaborative projects and working in public spaces, both with large murals and small walls. This activity and high self-organization also led to the creation of projects for other artists and the unification of the community. From 2015 to 2021, he was involved in the Alarm graffiti festival (Uzhgorod, Lviv, Ivano-Frankivsk, Lutsk, Odesa, Dnipro) and in 2016, the "Lviv Street Gallery."

He is currently focused on studio projects. He lives and works in Ivano-Frankivsk, Ukraine.
