# HAEJIN YOO

## International Acrylic & Mixed Media Artist

Haejin Yoo, a self-taught acrylic artist born in Seoul, South Korea, creates surrealistic expressionist art to evoke past and present emotions.

In her artistic exploration, Haejin extends beyond the canvas, integrating mixed media such as acrylics, textiles, carpentry, and spray paint. Her intention is to breathe life into the image, surpassing the constraints of a flat surface. Whether painting onto the frame itself or infusing various materials, each element contributes to the illusion of her surreal expressions.

Haejin's artistic passion was discovered at a young age but was suppressed until her late twenties. She now lives in Cologne, Germany, where she exhibits her work across Europe.
